

Cinderella / Sunshine

by Demetria

These two songs are part of a concept album that is coming up, that is dedicated to the Land of Dreams and Nightmares. Cinderella is the "soundtrack" of a dream-nightmare I've experienced during the period I was creating the album. It's happy, it's sad, it's creepy and it has vibes that remind you of an old classic fairy tale. "Sunshine" is about waking up from a dream.
